

Message from patient: Karl Dore
Physician nominated: Dr Kalyani Srinivasan
Fredericton

November 1, 2014

I nominate Dr Kalyani Srinivasan of Fredericton for the NB Super Family Physician Award. Dr Srinivasan has been my family's doctor for a very long time, indeed decades. We have come to think of her as part of our family, she having seen us through so many difficult times. As much as a patient can tell, I think Dr Srinivasan is at the very top end of her profession. I say this based not only on our results from her excellent care, but the obvious high regard in which she is held by her peers. Patients and peers both know her to be extremely thorough, indeed relentless, in her patients' welfare. And when I speak of her peers, I speak from considerable personal experience, having heard a good deal of feedback from them during my late wife's recent 2 year ordeal with uterine cancer.

In Dr Srinivasan's office, one is never rushed. She takes all the time you need.

Equally if not more important, Dr Srinivasan is such a caring person. She does everything she can do to make your life better. Just to see her smile and big eyes twinkle is enough to lower my own blood pressure to normal. 😊
