REGISTRATION OPENS FEBRUARY 9, 2023

Welcome to the 65th Annual Scientific Assembly!

It is my great pleasure to welcome you all back to the Manitoba College of Family Physicians' 65th Annual Scientific Assembly. After 65 years we continue to provide the premier Family Medicine conference in Manitoba for our members.

This year's Annual Scientific Assembly is designed with you, our colleagues, in mind. We have worked hard to develop an exciting schedule full of useful clinical information. This is based on your feedback from evaluations over the past number of years, and we always work hard to take your honest comments into consideration. You will see we have streamlined this year's program to provide maximum, high yield sessions in a timely manner to maximize your learning.

As well, we are excited to have you join us in person after a successful number of years with our conference being provided virtually. We look to have learned from those years in order to deliver a program that is helpful to all our members across the province.

We hope that you find this Annual Scientific Assembly more than just an academic experience. This is an opportunity to make your practice life better and easier. Please be sure to see our community and clinical exhibitors for a number of resources to use in your practice.

Furthermore, the Annual Scientific Assembly is an opportunity to celebrate the winners of our many awards. We are pleased that we have the opportunity to celebrate winners from the past number of years in person this year.

I would like to thank the staff of the Manitoba College of Family Physicians for their ongoing work and dedication to make this a meaningful event for our members. I would like to thank the members of the Continuing Education and Research committee which plan the Annual Scientific Assembly. Their enthusiasm for high quality continuing medical education helps make this event a success every year.

We look forward to seeing you in April, and look forward to celebrating Family Medicine together!

**Dr. Ian Alexander, MD CCFP, Research & Education
Chair** Assistant Professor - Department of
Family Medicine
Selkirk Medical Associates, Selkirk

2023 Continuing Research & Education Committee

We are so thankful for the hard work and dedication that the members of the Continuing Research & Education Committee put into organizing this conference. Their commitment to providing valuable resources and opportunities for learning is truly inspiring. We are grateful for their efforts and cannot thank them enough for helping to make this event possible.

Health Sciences, Max Rady College of

Medicine

Lisa Goss, MBA

CEO/Executive Director, MCFP

Annual Scientific Assembly

PHILOSOPHY & LEARNING OBJECTIVES

The Family Physician will:

- Gain knowledge about new concepts in the delivery of family medicine
- Gain knowledge and skills to apply to their everyday practice
- Be given an opportunity to discuss concepts that are controversial and innovative
- Be challenged by new innovations in medicine and continually apply these to their practice
- Leave the program with confidence in new skills and gain tools to explore new ways of obtaining information and expanding his or her knowledge.

CME REBATES

The CME rebate program is negotiated and administered through Doctors Manitoba. Manitoba Health provides the reimbursement for CME costs, and this is made possible through the hard work and negotiations of Doctors Manitoba. The Annual Scientific Assembly would qualify for reimbursement of registration fees.
